JBOD Docking- and Clone Station with USB 3.0

Working with a cabinet full with HDDs is a good reason to use this double docking station. It is for 2.5" as well as for 3.5" SATA HDDs. The 2.5" HDDs might have a height of 9.5 or 12.5 mm, even 15 mm. Due to its power supply the dock also runs 12 V HDDs. USB 3.0 accelerates the transfer of huge data, e. g. movies, enormously. Connected with a PC the HDDs are detected as two independent drives under JBOD Mode. Without PC you can clone the HDD just by pushing a button. You can even clone a bootable HDD with operating system.
